**W**e are unique. We live in the diplomatic capital of the globe. No other city has more embassies than we do here in Washington DC – if a country can only have one Embassy; it's here in Washington D.C. When you need visas, passports, documents legalized, certified or authenticated this is the city, the global document capital.

Over the last 30 years, Washington Express has developed a reputation for being the capital's most trustworthy courier service. During this time, we've seen the visa, passport, and document needs of legal firms continue to grow. Washing-

ton Express Visa is now providing the specialized handling that law firms in the nation's capital require for international travel and use. Documents are picked up by our specialized couriers and reviewed here in DC by on-staff process-managers who know the requirements and nuances of effective submissions. They are then submitted to embassies by our experienced document specialists. We return your firm's documents in an unbroken chain of custody.

Washington Express Visa directly pays all fees related to service — you don't have worry about getting checks cut or re-doing work if fees are different than expected. We are the only single source Visa, Passport and Document services provider in the nation's capital.

Washington Express Visa proudly holds the certification of ISO 9001 company. That means we live up to quality control standards at the highest international levels. Your documents are in our custody from start to finish. The reliability and trustworthiness that legal firms have come to expect from Washington Express is the foundation for Washington Express Visa. Our staff's experience at the International Monetary Fund and the Department of State come together to make your processing simpler, faster, smarter, more trustworthy and more effective than ever.

## Introducing simpler, faster, smarter visa, passport and document authentications.

The more global your business, the more local Washington DC expertise you need. Washington Express Visas is the only *single source provider* for expedited document processing based in the nation's capital. We have multi-lingual document specialists
